

## NuTop Dress™

As the name suggests,  
**NuTop** is the new innovation  
when it comes to Top Dressing  
Lawn areas.

**NuTop** is made exclusively from 100% organic materials. You know that **NuTop** is used for filling hollows and adding nutrients to the lawns at the same time. To ensure you achieve best results while using **NuTop**, talk with the NuGrow team before you start your project.

### Technical Specifications

**NuTop** Top Dress conforms to Australian Standards (AS4419) and can be utilised in all turf applications due to its balanced, turf available nutrient profile. Test results are available on request.

### Applications and Uses

**NuTop** Top Dress is suitable for small and large turf Projects. **NuTop** offers greater performance in general top dressing situations. **NuTop** also provides piece of mind that you have used the highest performing mix in the NuGrow top dressing range. For particular site specific applications, you should consult your soil adviser or landscape architect.
